# Experts in herbal pet care

It's another busy year here at Dorwest HQ with a fresh look and new products on the horizon.

Last year was a true celebration for Dorwest, with our 75th anniversary, 50th time at Crufts and picking up a few impressive awards on the way, including 'Best B2C performance for Pet' (Direct Commerce Awards) and the silver award for 'Best Content Marketing campaign' for **MoveWellia® Tablets** (Ecommerce Awards). It's this recognition, alongside our wonderful customers and feedback, that motivates us to keep the momentum going to bring you the very best in herbal pet care.

Over the past 12 months, we have been busy working on a brand refresh, and you will now see some of your favourites looking a little different. Read about our process on page 6, as we have taken on board feedback from the whole Dorwest Team, and you, our amazing customers. Later this year you will also see new products added to our range to support digestive health and anxious pets. These are areas which we get lots of queries about and these exciting new formulations will complement our existing supplements. So, watch this space!

It is always this time of year that we see pet's sensitivities changing in line with the warmer weather. Read our resident partner dog trainer Amelia Steele's advice for keeping cool this summer, with herbal support from **Garlic & Fenugreek Tablets** and **Green**

**Releaf® Tablets** (page 18), alongside our recommendations for natural support for healthy summer skin (page 8). We also have a fantastic testimonial from Staffordshire Bull Terrier Beau's results supporting her Pododermatitis condition (page 12).

We're so proud to have supported five more amazing charities in 2023 through our Dorwest Foundation and profits from our bestselling **Keeper's Mix®** products. Read about our support for one of those charities Galgos del Sol (page 24) where we are following Galgo Mistletoe's journey through her rescue and surgeries.

Finally, don't miss our other summer features on our topical treats (page 10), advice on stress-free summer holidays (page 14) and how to support your dog's joints this summer with our award-winning range (page 16). We also introduce our full ambassador team on page 26, all showcasing their real-life experiences and results with Dorwest!

It isn't long until one of our favourite events of the year – Crufts! So why not come and say hello, we will be at stand 4-72. We wish you a wonderful summer, and don't forget to follow us on social @dorwest and sign up to our newsletter for all the latest!

*Jo & Ben Boughton-White*

## NEW LOOK

# More than just a fresh new look...

Our visual identity is a hugely important part of representing who we are, what we stand for and – most importantly – our role in the lives of our lovely customers and their pets today.

That's why we started the process of our rebrand by surveying our amazing customers to gain valuable insight into their lives, the challenges that they face and what matters most to them. A huge thank you if you did participate in the email survey last year, this truly helped us understand your needs, wants and expectations - as today's Dorwest customer!

This information, combined with insight from the Dorwest team, revealed a common theme...

### Things are better together.

And this is something that is evident throughout Dorwest:

- The coming together of two families at the very start – one with a long line of vets, dog lovers and show dogs, the other well-respected herbologists.
- The combination of our herbal ingredients chosen carefully to meet specific needs, alongside rigorous testing to the highest pharmaceutical standard.

- The unity of an unwavering focus on quality, alongside a dedication to increasing our positive impact on pets and lessening our negative impact on the planet.

- The wonderful relationship between a dog and its owner, working alongside experts at Dorwest to specifically support dog's natural defences.

All of this has been poured into the 'new look' packaging, using beautiful, natural illustration and clever design to project who Dorwest truly is today. Far from just looking great, changes to our labelling will make it easier to navigate our products and select the ones that best suit your pet, including: clearer product naming, quick summaries of intended use and the introduction of 'function' icons.

Additionally, it was clear from our survey findings that sustainability is equally important to customers, adding further motivation to our upcoming packaging improvements, including the introduction of bio-plastic pots.

This is the next step in our ongoing journey to keep delivering natural health support for pets, via quality herbal products and commitment to excellent customer service. As, always, we can't wait to hear what you think!

*Did you know...?  
Bio-plastic tablet pots  
are easily collected in  
domestic recycling and  
can be recycled several  
times with stable quality.*

### NEW BIO-PLASTIC TABLET POTS

- Made from renewable plant-based resources.
- Made using Bio-based PE classified as food grade.
- Ensures the same shelf life and longevity of quality products.

# Beat the summer itch

Skin problems often peak during the summer, with the warmer weather and an increase in irritating pollens and pesky parasites having a part to play.

Here are some of the key summer skin issues and tips to combat them:

#### **Pollen or grass allergies:**

Like many humans, pets can have sensitivities and allergies to their natural environment. When trying to locate what's causing your pet to feel excessively itchy, keep your eyes peeled for helpful clues and if they are particularly itchy after they've come into contact with something specific like grass, which could signal a grass allergy.

#### **Hot spots and infections:**

The warmer, more humid weather can increase the risk of skin infections – especially in dogs with a dense coat, skin folds or those who suffer from allergies. Herbal support can help soothe the itchiness, with regular grooming helping to remove moulted coat.

#### **Parasites:**

Fleas, ticks and flies can all become more of a nuisance in the summer months. As well as treating your pet if they do have a problem, ensuring your home is treated too can be a very important part of the process. This will help to eradicate parasites and stop the cycle from reoccurring.

#### **Grass seeds:**

Grass seeds can be a nightmare if they penetrate your dog's skin, feet and ears, with skin folds also a common place to find them, so make sure you check your dog after every walk.

#### **Sunburn:**

If your pet has a thin coat or little pigment, they may be at risk of sunburn. Always make sure they have access to shade and apply a pet-safe suncream as needed to high-risk areas.

#### **HELP FROM THE INSIDE**

Our skin herbal supplements are perfect for supporting sensitive or compromised skin.

**Garlic & Fenugreek Tablets** contain high levels of antioxidants and compounds to help maintain the body's defences against infections and parasites. For thousands of years, Garlic has also been known to provide a hostile environment for parasites such as fleas.

RRP from **£10.50** (see page 40)

**Green Relief® Tablets** contain a powerful combination of specially selected green leafed herbs to help maintain healthy skin, particularly when it is sensitive; with soothing, cleansing and pH balancing properties.

*If you're looking to achieve maximum results for your pet, we always recommend using these supplements together to help nourish and soothe itchy skin, whilst helping to stimulate and develop a strong immune system.*

RRP from **£10.50** (see page 41)

**Easy-Green® Powder** is ideal for helping hotspots, and the perfect partner for a raw diet! All the power of 'super greens' in an easy-to-give powder, with natural cooling properties to help keep your pet's skin cool and comfortable!

RRP from **£13.50** (see page 38)

**Omega Star® oil** is naturally high in nourishing Omega 3 and 6 oils to support a healthy skin and coat. The unique blend of high-quality plant oils helps restore the moisture barrier whilst nourishing and soothing the skin – ideal for combatting scurfiness!

RRP from **£24.90** (see page 46)

#### **HELP FROM THE OUTSIDE**

If you are looking for help from the outside, read more about our topicals on page 10.

# Summer topical treats

Keep your pet's skin and coat looking and feeling their best all summer long with our natural, herbal-enriched topical range.

Filled with natural skin-loving ingredients, the range includes liquid and bar shampoos and balms to suit every pet and skin type.

#### Shampoos:

Specially formulated to support optimal skin and coat health, our shampoo liquids and bars all have nourishing and moisturising properties and are designed to create a creamy lather to help effortlessly clean the coat, but also with good rinsability so no residue is left behind. Each formulation then provides targeted support for specific skin (and pet!) types, thanks to their individual natural active ingredients.

We have options for every skin type, including our Soothe & Calm Shampoo for soothing irritated skin, naturally hydrating Soft & Serene Shampoo Bar and Scent & Shine Shampoo for unbeatable shine, and for the absolutely most sensitive of skin Natural & Naked Shampoo Bar with no essential oils. For the muckiest pups our Fox & Flea

Shampoo Bar and Clean & Fresh Shampoo remove the stinkiest of smells and also help to deter pesky parasites.

So, whatever your four-legged friend skin needs, we have bath time covered! And as all are free from artificial colours and fragrances, parabens, SLS, silicone, mineral oil, petroleum and PEGs, you can be sure that you're washing your dog with nothing but natural goodness.

Our shampoo bar packaging is also 100% recyclable and plastic-free, making them great for our planet too!

#### Balms:

Restore healthy skin with our hand-crafted balms, packed full of calming and nourishing ingredients to soothe cracked noses, paws and irritated skin. Our Skin Balm is ideal for pets who suffer with summer allergies, hot spots or for minor grazes and stings, while our Paw & Nose Balm helps stop cracked pads and crusty noses.

**Fox & Flea Shampoo Bar**  
Help deep clean, deter parasites and counteract even the most unpleasant odours.

RRP **£9.90**  
(see page 51)

**Natural & Naked Shampoo Bar**  
Stripped-back and simple formula with no essential oils, ideal for the most sensitive skin.

RRP **£9.90**  
(see page 51)

**Soft & Serene Shampoo Bar**  
Restore calm with a blend of highly nourishing and soothing natural ingredients.

RRP **£9.90**  
(see page 50)

**Skin Balm**  
Handcrafted to naturally soothe and hydrate irritated skin.

RRP **£12.50**  
(see page 54)

**Soothe & Calm Shampoo**  
Combines soothing and calming properties, ideal for dry or sensitive skin.

RRP **£9.50**  
(see page 53)

**Clean & Fresh Shampoo**  
With gentle yet cleansing eucalyptus and lemongrass and the minty power of black peppermint essential oil.

RRP **£9.50**  
(see page 52)

**Scent & Shine Shampoo**  
Perfectly balanced for healthy, hydrated and soothed skin with unbeatable coat shine.

RRP **£9.50**  
(see page 52)

**Paw & Nose Balm**  
Handcrafted to naturally moisturise and nourish cracked pads and crusty noses.

RRP **£12.50**  
(see page 54)

*"We cannot recommend Dorwest enough as with each product we use comes a very happy success story. We will forever kick ourselves that we didn't try these two supplements sooner! We've finally got our adventure-loving pup back!"*

@northboundbeau\_

## SUCCESS STORY

# The perfect support for environmental allergies

4-year-old Staffordshire Bull Terrier Beau was diagnosed with Pododermatitis, an inflammation of the skin in the paws causing hair follicles to push back into the paws, which can lead to large cysts.

Owner Louise from Fife in Scotland searched high and low for the perfect support, trying numerous creams, washes, and medication. After a rather stubborn flare up, a skin graft from Beau finally confirmed numerous environmental allergies, ruling out food and any orthopaedic issues. This meant support was going to be a real challenge with so many triggers nearly impossible to avoid, such as: grass, weed pollen, house dust and storage mites.

After seeing success stories surrounding Dorwest's **Green Releaf®** and **Garlic & Fenugreek Tablets**, Louise decided to reach out to the Dorwest customer service team. Within a couple of days of using the supplements, Beau's excessive licking was massively reduced, followed by the heat and redness beginning to disappear and cysts started to shrink.

Beau is currently just over a month of taking two tablets daily and the results speak for themselves.

### **Garlic & Fenugreek Tablets**

Packed full of natural active compounds to promote general health & help to stimulate and develop a strong immune system.

RRP from **£10.50** (see page 40)

### **Green Releaf® Tablets**

Natural support for your pet's skin, joints and urinary system, with soothing, cleansing and pH balancing properties.

RRP from **£10.50** (see page 41)

### **TOP TIP:**

Use these two products together to maximise results. Garlic & Fenugreek Tablets work perfectly with our Green Releaf® Tablets to naturally support the skin. As skin takes about three weeks to regenerate in dogs, it's best to use these products for at least a month before expecting to see an improvement.

# Stress-free summer holidays

Whether your pet is tagging along, staying at home or heading into kennels, there is likely to be a change in their routine which can be stressful.

## Keep them calm and relaxed:

Travel, new places and separation, all things which are common on a summer trip, can be common triggers for anxiety. Pets who struggle with these will benefit from gentle and consistent behavioural work and training in advance to help desensitise them. Our natural herbal range includes our proven to calm\* **Scullcap & Valerian Tablets** and **Valerian Compound** helping to naturally relax your pet.

The active herbs in these products help to naturally support the calming pathways within the nervous system, reducing anxiety without immobilising muscles or causing drowsiness. Scullcap & Valerian Tablets are best-used long-term to help tackle stress, fear and anxiety and can also help support a training program, while Valerian Compound is fast-acting within 30 minutes to help calm your pet quickly, and ideal as a 'top-up' to the tablets.

## Look after their tummies:

The stress of change and travel sickness can lead to upset tums, which isn't fun for you or your pet. There are a few steps you can take to help prevent these troubles though, including following the steps above to help manage any stress.

For motion sickness, our **Digestive Tablets** contain ginger and peppermint oil to help naturally settle the stomach. Give them an hour before you set off for the best results. Keeping a window open and the car cool and limiting meals before travel will also help.

If the change in routine or place impacts your pet's tummy then our **Tree Barks Powder** can help to quickly soothe their digestive tract and is especially helpful with diarrhoea. The special formulation coats and soothes the stomach and digestive tract (emollient action) and slows down the passage of food. All this helps maintain normal absorption of nutrients and stools with normal consistency.

## Digestive Tablets

Support upset tums with calming ginger and valerian, rhubarb and peppermint to aid digestion, and slippery elm to help soothe and comfort.

RRP from **£10.50** (see page 38)

## Scullcap & Valerian Tablets

Tackle stress, fear and anxiety by naturally supporting the calming pathways within the nervous system. Best effects are seen when used over time.

\*87% of participants saw less anxiety symptoms after using Scullcap & Valerian Tablets in University of Cambridge Department of Veterinary medicine 2022 trial.

RRP from **£12.50** (see page 47)

## Tree Barks Powder

Marshmallow root with powdered slippery elm and white poplar bark to naturally calm tummies and support digestion.

RRP from **£14.50** (see page 47)

## Valerian Compound

Calm your stressed, excitable or frightened pet quickly and naturally, with pure extracts of three herbs in an easy-to-give liquid form. A great short-term option and can be used alongside Scullcap & Valerian Tablets as a top-up, if needed.

RRP from **£12.50** (see page 48)

# Keep them moving well this summer

Our natural (and award winning!) joint care range has been developed to support all dogs – young and old, no matter where they are on their joint health journey.

All dogs, regardless of age or breed, will experience wear and tear on their joints throughout their lives. This can lead to joint problems in the future, causing pain and stiffness, taking the joy out of movement!

Some dogs are also just more prone to joint issues due to developmental abnormalities or previous injury. This is why our range has been especially developed to provide support for all dogs, because it's never too early (or late!) to start looking after your dog's joints.

Our joint products are designed for different joint health stages:

**JointWell®** is for dogs looking to maintain joint mobility - packed full of joint-friendly natural ingredients to promote a healthy joint environment allowing free movement. Protecting your dog's joints now is the best way to keep them moving long into the future, and that's exactly what JointWell® is designed to do.

Named 'Overall Best Joint Supplement for dogs' by the Evening Standard, **MoveWellia®** is for dogs actively experiencing joint health challenges - with a unique blend of natural active compounds which are each individually renowned for their joint supportive properties. It delivers the highest concentration of the joint health super-star, Boswellia, for powerful, natural support of your dog's movement, alongside the unique blend of ingredients: Glucosamine hydrochloride, Chondroitin, Vitamin C, Zinc and Hyaluronic acid. Expertly formulated with vets to deliver powerful joint support to maintain comfort and mobility, our MoveWellia® launch campaign, including our product video, also won silver for 'Best Content Marketing Campaign' at the Ecommerce Awards 2023.

So, whatever the joint health challenge – we've got it covered!

*Everyday joint care*

### **JointWell®**

Carefully formulated to promote joint health, using natural ingredients, JointWell® works hard every day to look after your dog's joints.

RRP from **£14.50**  
(see page 41)

*Advanced joint care*

### **MoveWellia®**

Includes the highest concentration of Boswellia extract available for dogs, to help keep your joint-problem prone dog comfortable and active.

RRP from **£20.50**  
(see page 45)

# Amelia's tips to keep cool this summer

Our resident partner VSA Certified Professional Dog Trainer & Behavioural Specialist Amelia Steele gives her advice for keeping your dog comfortable with rising temperatures this summer, and how to support seasonal allergies.

*"Coming into summer, it's common for pet parents to see changes in their dog's behaviour. With the warmer weather and an increase in environmental allergens, there are a number of reasons why your dog's behaviour may shift."*

**Amelia Steele**

"As temperature starts to rise, it's important to keep an eye on your dog. Not only might they feel generally more uncomfortable, it's also important to know when it is and isn't safe to go on walks. Here are my top tips for keeping your dog comfortable throughout the summer:

#### 1. Help keep your dog cool

"To help keep your dog cool, you can purchase products like cooling mats & bandanas. Personally, I prefer the bandanas as mats can get ripped up! It can also help to orient your enrichment around cooling activities. This could range from a paddling pool to splash around in, to making frozen lick mats or Kongs for your dog.

#### 2. Limit or change walks

"When temperatures start to rise it's worth being cautious when it comes to walks, especially for dogs who are larger, older or overweight. Stick to slow lead walks and end walks quickly if your dog shows any signs of discomfort such as: heavy panting, drooling or generally struggling. Avoid games like fetch or any vigorous exercise. Try to walk your dog early in the morning or late at night when it's cool. After 26 degrees, I typically recommend avoiding prolonged time outside all together.

#### 3. Prepare your dog for more distractions

"Another common issue I see in the summer is an increase in reactivity. With the weather improving, usual walking routes will get busier. This means dogs have to put up with a lot more exposure to other dogs and people compared

to the winter months. This can lead to both excitement or fear reactivity depending on your dog. To avoid this, I recommend spending some time proactively desensitising your dog and building up to all these new distractions.

#### 4. Use herbal support for summer allergies

"Allergies are a common trigger for behavioural change. If you see signs your dog is getting itchy and uncomfortable, you may start to see an increase in "naughty" behaviour. Dorwest's **Garlic & Fenugreek Tablets** and **Green Releaf® Tablets** work really well together to help boost immunity and soothe itchy skin, so I'd definitely recommend herbal support for allergy symptoms. Try to also keep your dog out of long grassy areas, as grass seed and the grass itself can irritate your dog's skin.

"The summer months can pose new challenges for us pet parents, but the key to keeping your dog happy and safe is to be prepared. Getting ahead of any issues that may develop is always the best route, and if in doubt, always do your research to keep your dog safe."

Follow us on social [@dorwest](#) and [@ameliathedogtrainer](#) for more of Amelia's advice! Amelia will be providing a whole host of advice through: blogs, videos and Instagram Live appearances.

#### Amelia Steele memberships & certifications:

- Dunbar Academy Member
- IMDT - Dog to Human Aggression
- Charter Practitioner under the UK Dog Training & Behaviour Charter

Keeping hormones balanced is vital for your dog's health and well-being, especially true for your pet's sex hormones - oestrogen, progesterone and testosterone - which are more relevant to entire/un-neutered animals.

For bitches, hormone levels naturally fluctuate, leading to physical and behavioural changes especially during seasons, pregnancy and lactation. During these times, extra support can help to maintain optimum balance and promote good fertility. **Evening Primrose Oil** is renowned for its ability to help maintain normal hormone levels, and **Wheatgerm Oil** is naturally high in Vitamin E, helping to support hormonal stability and the reproductive system. Homeopathic remedies can also support pregnancy and whelping, with **Caulophyllum 30C** to support normal contractions and **Urtica Urens 30C** which can help to increase milk flow in lactating females.

Some bitches may experience false, pseudo or phantom pregnancy, which is linked to hormone imbalance following her season. Unfortunately, if your dog has a tendency to these, she's likely to

suffer repeatedly, with symptoms of increasing severity. Herbal support can help to reduce the effects including **Raspberry Leaf Tablets**, often used to help pets better cope with the hormonal changes that can lead to pseudo-pregnancies and can also be used to support pregnancy and birth. Homeopathic remedy **Pulsatilla 15C** is useful for maintaining hormonal health following a pseudo-pregnancy, and **Urtica Urens 3C** is ideal for the mum after a litter as it helps to support the natural bodily process of less milk production, or during a phantom to also reduce milk flow.

For boys, high testosterone levels can bring some unwanted effects such as aggression, dominant behaviour and increased sex drive. **Gelsemium 30C** can help to reduce sex drive, and is ideal for use if a female in season nearby is causing over excitement. **Scullcap & Valerian Tablets** can also help to naturally relax your pet, with the active herbs naturally supporting the calming pathways within the nervous system, reducing anxiety without immobilising muscles or causing drowsiness.

## Hormonal balance is key

Just like us, hormones play a huge role in your pet's body and can influence things like behaviour, fertility, weight, metabolism, coat and skin.

ADVISOR'S CHOICE

## Becky & Molly-May

Celebrating her 25th anniversary at Dorwest in 2024, Customer Services Manager Becky England tells us how the business has changed in this time – and what she loves about working at Dorwest.

“I can’t believe I’ve been at Dorwest for 25 years! Both the business and the pet industry have changed considerably over this time. When I first joined, all orders were handwritten! And now - the team, technology and customer base has grown considerably. Some of our lovely, loyal customers have been buying for their dogs from Dorwest for 20, 30 or even 40 years!

“Dorwest has always been a family – everyone helps and supports each other, and this also translates to our customer service. We are the trusted product experts, and we care immensely about pets. This is why our team is second to none in care and professionalism.

“One of the perks of working at Dorwest is bringing my 6-year-old Daschund Molly-May to work every day. Sweet and sassy, she’s a typical dachsie (!) and you will hear her before you see her.

“Molly uses **Tree Barks Powder** to support her pancreatitis, alongside **Keeper’s Mix® Sensitive** for all-round health. We keep her teeth clean with **Fragaria 3C** and **Roast Dinner Toothpaste**, and she uses both shampoo liquids and bars for her bath time! Whenever her skin flares up, we also add in **Garlic & Fenugreek Tablets** and **Green Releaf® Tablets**, to support her immune system and soothe any itchy skin.”

*“Dorwest has always been a family... everyone helps and supports each other...”*

REAL LIVES

## Mistletoe's journey

Every year 10% of profit from our bestselling Keeper's Mix® range is donated to the Dorwest Foundation, and we were recently able to support rescue and rehoming charity Galgos Del Sol.

The Dorwest Foundation was established as part of our 70th birthday and to show our commitment to ongoing charitable giving 'to help dogs and cats that are in need of care, health and quality of life improvements and to support charities where dogs are trained to help humans either in an assistance, rescue or medical capacity.'

At the end of 2023 we funded rescue Galgo Mistletoe's recovery at Galgos del Sol, a licenced charity in both Spain and the UK, rescuing and looking after hundreds of dogs every year. Founder and president Tina Solera moved to Murcia in Spain from the UK in 2007 with her family and now rescues, cares for and rehomes Galgos, Podencos and mixes of those breeds; with her centre housing over 300 dogs at one time.

Sweet 3-year-old Mistletoe was picked up by the Perrera in Almeria, Spain, at the side of the road after

being run over and left with an open fracture. She had her leg splinted and strapped at a local vets before going to Galgos Del Sol in Murcia to have an operation to restructure her whole leg. Dorwest named her Mistletoe as she was found in December and it is one of our favourite herbs to support anxiety, found in bestsellers **Scullcap & Valerian Tablets** and **Valerian Compound**. Dorwest supported Mistletoe's operation, physiotherapy and medical bills whilst receiving treatment and she is now fully recovered – even loving some agility!

We're extremely proud to be able to support charities like Galgos Del Sol, striving to offer the very best for dogs as they wait for their forever homes, and couldn't do it without Dorwest customers!

If you're interested in adopting a Galgo, donating or for more information, please visit: [www.galgosdelsol.org](http://www.galgosdelsol.org).

AMBASSADORS

# Meet the 2024 Brand Ambassadors!

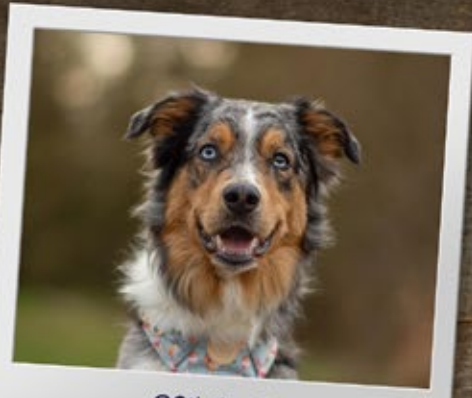

The Dorwest brand has always been loved and respected by word of mouth and recommendation – which is why our brand ambassadors are so important!

The Dorwest ambassador programme was established in 2022 for existing customer pet accounts, active on social platforms. Ambassadors share their own high-quality content for their social media channels or blogs and inform followers of personal results using Dorwest products. Official Dorwest Brand Ambassadors for 2024 include:

**@northboundbeau\_**  
Scottish adventures of a beautiful Staffie named Beau!

**@Oti\_thecollie**  
Meet agility pup in the making, Oti!

**@Skyeandhamish**  
Meet best friends brother & sister Scottish West Highlanders.

**@skyebluestaffy\_**  
Meet raw fed & smiley happy-go-lucky 5 year old Staffy girl Skye!

**@picklelilyup**  
Follow Pickle the Bully, the deaf, rescue pup.

**@Polka\_Dot\_Loki**  
Follow reactive Dalmatian Loki, with owner Lorren.

**@tails\_on\_the\_trails**  
Follow raw-fed Collie squad - Finne, Freya, Alfe and Millie.

**@TailsFromEarthSea**  
Samoyeds hyper mobile Kiba & meat-trade & cancer survivor Therru!

**@RainTheWhippet**  
Follow the stunning photography of Yorkshire Whippet called Rain!

**@Theresonlyoneecho**  
Follow Border Collie Echo, star of Netflix's Heart Stopper series!

Follow us **@dorwest** to see all of our beautiful ambassador content, showcasing their personal results of our trusted, herbal range.

# Spot the signs of cognitive decline

As your pet ages, changes occur across their body. But what are the signs you need to be aware of that could be accelerated cognitive decline, known as ‘doggy dementia’?

While cognitive decline occurs in all pets as they age, the decline will be accelerated in some. This is often termed canine cognitive dysfunction syndrome (CCD), or ‘doggy dementia’, and is surprisingly common - thought to affect nearly 1 in 3 dogs over the age of 11.

Cognitive decline can impact the quality of your pet’s life as well as the whole family. While there is no cure, there are ways you can help support your senior pet such as maintaining routines and remembering to be patient and kind to them. The following signs may indicate your pet could use some extra support:

- Memory loss
- Restlessness
- Agitation
- Disorientation
- Altered behaviour including sleep
- Increased barking
- House-soiling.

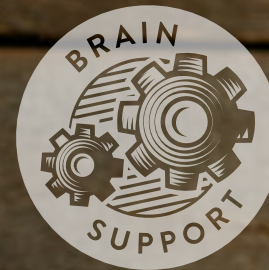

Natural, targeted, multi-action brain health and cognitive function support **BrainCopa® Tablets** can help keep them mentally agile well into their golden years. With 90%\* of our trial participants seeing overall improvements after using BrainCopa®, the unique formulation of scientifically proven

natural ingredients includes Bacopa monnieri, a powerful antioxidant herb, long used in Ayurvedic medicine as a ‘brain tonic’ supporting the central nervous system, memory and cognitive function.<sup>2</sup> It can also help maintain a normal inflammatory state in the brain.

With other ingredients including:

- Ginkgo biloba - a herb used in traditional Chinese medicine, and rich in anti-oxidants, found to improve the quality of life of older dogs and minimise the impact of disorientation, and sleep and behavioural changes.
- DHA powder - an omega-3 fatty acid which is vital for brain development and ongoing brain function, shown to support cognitive function in older dogs and is well-tolerated and readily absorbed.<sup>1</sup>
- Lemon balm - a calming herb, traditionally used to aid those with sleep disturbances.
- Vitamin E - recognised as a powerful antioxidant, helping to support optimal memory and aids DHA uptake in the brain.

Help keep brain health and cognitive function at its best. Speak to one of our knowledgeable product experts today, on 01308 897272.

“So nice to see her happy and settled, not anxious.”

“I felt these did make a big difference, the biggest being night-time.”

Comments from the 2023 trial

BrainCopa®

Targeted multi-action support to promote normal brain and cognitive function, with a unique combination of scientifically proven natural ingredients. See page 36 for dosage information for BrainCopa® Tablets.

RRP from £20.50 (see page 36)

References:

1. Hadley et al (2017)
2. Simpson et al. (2015)

\* BrainCopa® trial completed in February 2023 with a total of 21 participants, all with dogs needing different levels of cognitive support from ages 7 to 15 years. Participants were surveyed on their dog’s symptoms before the trial, and after the trial 28 days later. For more information, please contact marketing@dorwest.com.

It's all thanks to our wonderful customers that the Dorwest Foundation has been able to help countless animals in need and improve the lives of those that require it most.

Animal health and welfare is truly at the heart of what we do, so we started the Dorwest Foundation as part of our 70th anniversary celebrations, with the aim of helping dogs and cats that are in need of care, health and quality of life improvements.

Since the Foundation launched, we have donated to deserving charities in the form of vouchers, products and much needed funding. We couldn't provide this support without you though, with 10% from every sale of Keeper's Mix® and Keeper's Mix® Sensitive going towards this charitable fund.

During 2023, we were able to continue our aid with five more amazing charities. Thank you for your continued support, and we look forward to helping even more animals in need over the coming years.

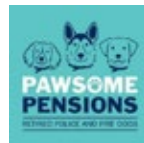

**Galgos Del Sol** – a licenced charity in both Spain and the UK, rescuing and housing nearly 500 dogs in 2023. Follow rescue Galgo Mistletoe on Dorwest's social channels @dorwest, as we support her operations and recovery!

**Ferne Animal Sanctuary** – local rescue, re-homing animals for over 80 years in the UK, first founded by Nina, Duchess of Hamilton & Brandon at the beginning of the Second World War.

**The Pack Project** – finding UK homes for stray and abandoned dogs and cats from Romania and reducing the stray population in Romania through neutering programmes. The Pack Project is also supported by our partner dog trainer Amelia Steele, who visited Romania in 2023 to see their fantastic work in action.

**StreetVet** – helping to care for thousands of homeless people's pets on the street including: dogs, cats, rabbits and ferrets, through: vaccination, microchipping, flea treatment and protection against lungworm, pain relief, helping fight infections and surgeries.

**Pawsome Pensions** - set up to help support retired police dogs from Devon, Dorset & Cornwall Police services and fire dogs from Devon & Somerset Fire and Rescue Services.

# Our green pledge

At Dorwest, we're as passionate about keeping our planet healthy, as we are about keeping pets healthy.

### DID YOU KNOW:

You can now recycle our tablet pots through your every week domestic recycling collection, and they can also be recycled several times with stable quality!

To make sure that we are doing all that we can to reduce our environmental impact, we're constantly upgrading our green credentials with changes across the entire business.

We are now proud to say that our **delivery packaging is 100% plastic free**. This has included switching to loose-fill packaging that is made from corn starch rather than polystyrene, and using bubble wrap that is fully biodegradable.

Whenever possible though, we prefer to use **shredded cardboard**, which is created from waste cardboard collected from all areas of the business. If a box needs filling up to protect our products during transit, we use 100% recycled packing paper and boxes are closed up with paper tape, rather than plastic.

In addition to the delivery packaging changes, all of our **mailing wrappers and carrier bags are fully compostable**. At this rate, our customers will have enough beautiful compost to grow plenty of their own herbs (although maybe just for cooking – leave the supplements to us!)

We've also **changed our tablet pots this year to be bio-plastic**, made from renewable plant-based resources such as sugar cane or corn or other biological resources, providing a more sustainable alternative to raw materials derived from petroleum, still be classified as food grade. These provide the same shelf life and longevity for quality products.

We're proud of our eco-friendly efforts but are always looking for ways to do more, so let us know if you have any ideas.

# Our commitment to quality

Here at Dorwest, quality matters! From working with our growers to ensure we only use the best ingredients, to personally overseeing the manufacturing process, to delivering great customer service – it's all part of what we do to give your pet the best we can.

A great deal of expertise goes into making our herbal supplements. Our herbs are grown to our specific requirements or collected from wild, sustainable sources – each harvested in exactly the right conditions and at the right time. Where possible, all of our ingredients are fully traceable and are pharmaceutical grade, and we say no to using GM crops or unethical animal testing.

We use the most sustainable and ethical sources we can find and believe that our positive supplier relationships provide us with only the best quality ingredients to help us to deliver the best quality products.

We operate to the highest standards, from planting right through to production and quality assurance, to ensure the safety, purity and efficacy of our products. That means being responsible for everything from the formulation, manufacture, packing and distribution – with each product undergoing rigorous testing at each stage to guarantee quality.

Our products have been used and trusted by pet owners and veterinary professionals worldwide for over 75 years – something we are truly proud of, and it is our aim to continue this. We regularly review our formulations, update them accordingly and are always looking to launch new products to help further support your pets.

# Natural support for your pet

Find the perfect match for your pet in our comprehensive range of natural herbal supplements and topical products.

Every single one of our products is carefully formulated with your pet's health and well-being in mind. Using only the highest quality ingredients and herbal extracts, from sustainable sources, we strive for each of our products to be the best that it can be.

Our experienced team can help you make the right choice for your pet, by carefully considering their individual needs, and are always on hand if you have any questions. Our product range is designed to look after your pet from the end of their nose to the tip of their tail.

All our products are suitable to be used from 8 weeks of age, except Tree Barks Powder which can be used from weaning age.

- All our supplements are suitable for long term use.
  - Herbal products should be given for a minimum of one month before noticeable improvements are often seen.
  - Side effects are rare and there are no known interactions with other medicines. However, if your pet is on any medication for existing conditions, we recommend consulting your veterinary professional before using Dorwest products.
  - It is best to give half the daily quantity in the morning and half in the evening.
- Prices correct at time of print.

# Symbols & Sizing

The following symbols have been used throughout this catalogue to help you navigate our range easily.

When the dosage is based on the size of your pet, please use the following weights as a guide.

**Small:** <10kg    **Large:** 25–45kg  
**Medium:** 10–25kg    **Giant:** >45kg

## NEW PRODUCT BRAINCOPA®

100 tablets RRP **£20.50**  
 200 tablets RRP **£35.90**  
 400 tablets RRP **£59.90**

The unique and powerful formulation provides targeted multi-action support promoting normal brain and mental function to help keep your pet's mind agile. This can be especially useful in older pets experiencing cognitive decline and associated symptoms, such as restlessness. With a range of scientifically proven natural ingredients, including DHA powder for brain-friendly essential fatty acids and the renowned 'brain tonic' herb, Bacopa, BrainCopa® provides targeted, multi-action support giving you and them peace of mind.

### NEED TO KNOW

**Active ingredients:** Bacopa monnieri 500mg, Ginkgo biloba 500mg, Lemon balm 40mg, DHA 10mg, Vitamin E 5mg.

#### Administration:

Small dogs and cats (<10kg): 1 tablet daily.  
 Medium dogs (10–25kg): 2 tablets daily.  
 Large dogs (25–45kg): 3 tablets daily.  
 Giant dogs (45kg+): 4 tablets daily.  
 Can double recommended amounts if required.

**Use during pregnancy & lactation:** No

## COD LIVER OIL

100 capsules RRP **£8.50**  
 200 capsules RRP **£14.50**  
 500 capsules RRP **£29.50**

Fish oils are a great source of omega 3 fatty acids - good fats which play a major role in keeping your pet healthy. They are important for skin and coat condition, heart health and maintaining mobile and supple joints, making these slow-release capsules ideal for active or working dogs. Especially formulated to avoid that fishy aftertaste, the capsules are also high in Vitamin D, required for strong bones and the absorption of calcium and Vitamin A. They are particularly beneficial in winter when your pet may need an extra boost.

### NEED TO KNOW

**Active ingredients:** Cod liver oil 315mg, Gelatin, Glycerol,

**Administration:** 1 capsule per 10kgs bodyweight daily.

**Use during pregnancy and lactation:** Yes

## DAMIANA & KOLA

100 tablets RRP **£9.50**  
 200 tablets RRP **£16.50**

Is your pet feeling a bit lacklustre? Let us help you put a spring back in their step! Using a powerful trio of herbs to increase alertness, vitality and stamina, this supplement is the perfect pick-me-up for pets with low energy levels, such as those recovering from a recent illness or suffering bereavement. It can also give your pet a much-needed boost when they need to perform at their best, such as in the show ring; naturally energising by stimulating the central nervous system.

### NEED TO KNOW

**Active ingredients:** Damiana 230mg, Kola nut 45mg, Saw palmetto 45mg.

**Administration:** 1–2 tablets per 5kgs bodyweight 2hrs before activity, or daily if required.

**Use during pregnancy and lactation:** No

## DIGESTIVE

100 tablets RRP **£10.50**  
200 tablets RRP **£18.80**

All pets will experience a gurgling tum and excess wind at some point in their life - some get an unsettled tum when travelling and others are just more prone to digestive complaints. Our Digestive Tablets help to naturally support digestion and settle tummies, using a unique blend of herbs. Ginger and Valerian calms, while Rhubarb and Peppermint aids digestion and Slippery elm helps to soothe and comfort.

Perfect for use before car journeys, or for longer term support in pets susceptible to gut upsets.

### NEED TO KNOW

**Active ingredients:** Ginger 30mg, Valerian 20mg, Rhubarb 20mg, Myrrh 20mg, Slippery elm bark 10mg, Peppermint oil 0.2mg.

**Administration:** 1-2 tablet per 10kgs bodyweight, after meals, or one hour before travelling.

**Use during pregnancy and lactation:** Yes

## EASY-GREEN®

250g powder RRP **£13.50**  
500g powder RRP **£24.50**  
1Kg powder RRP **£42.90**  
3Kg powder RRP **£104.90**

Our Easy-Green® powder supplement has all the power of 'super-greens' in an easy-to-give powder. Just add to your pet's normal food for them to get all the benefits of eating a bowl of greens, without a spinach leaf in sight! The quick air-drying process retains maximum nutrients in a digestible form to naturally boost levels of iron, Vitamin C, chlorophyll, calcium, magnesium and anti-oxidants (to neutralise free radicals) for all-round health. Particularly beneficial in warmer months, Easy-Green® Powder also has cooling properties to help soothe pets with hot, itchy skin.

### NEED TO KNOW

**Active ingredients:** Finely powdered Spinach, Parsley and Watercress.

**Administration:** Give daily. Small dogs & cats 1 measure, Medium dogs 2 measures, Large dogs 3 measures, Giant breeds 4 measures (measure included in pack and equivalent to a ½ tsp).

**Use during pregnancy and lactation:** Yes

## ELDERBERRY & NETTLE

100ml bottle RRP **£14.90**  
250ml bottle RRP **£29.90**  
500ml bottle RRP **£52.50**

Have you noticed your pet's nose starting to turn pink? This is often the most obvious site of pigment loss, which can occur during winter, after oestrus (heat/season), following illness or in old age. Our Elderberry & Nettle liquid supplement uses highly concentrated, full strength extracts which are naturally rich in iodine and iron, both known to help combat pigment loss.

Add to your pet's food for as long as required, it will take around six weeks of daily use to see an improvement as part of the skin's renewal process.

### NEED TO KNOW

**Active ingredients:** Nettle extract, Elderberry extract, Kelp seaweed extract (*Fucus vesiculosus*).

**Administration:** Give daily. Small dogs & cats ¼ tsp, Medium dogs ½ tsp, Large dogs 1 tsp, Giant breeds 1½ tsp.

**Use during pregnancy and lactation:** Yes

**Precautions:** Please use glass pipette carefully to avoid breakage or injury.

## EVENING PRIMROSE OIL

100 capsules RRP **£13.50**  
200 capsules RRP **£24.50**  
500 capsules RRP **£56.90**  
1000 capsules RRP **£104.90**

Our Evening Primrose Oil capsules help your pet look like a showstopper. With the highest available levels of the omega 6 fatty acid and gamma linolenic acid (GLA), this supplement helps to enhance skin and coat condition for the glossiest locks around. Omega fatty acids are known to influence skin renewal, dandruff, dryness and coat shine, so this supplement is particularly beneficial for show dogs, long haired breeds or after moulting/ other hair loss. Evening primrose is also well-known for its ability to help maintain a normal hormonal balance, which can otherwise affect behaviour and coat quality.

### NEED TO KNOW

**Active ingredients:** Evening primrose oil 500mg (10% GLA), Gelatin, Glycerol, Vitamin E 4mg.

**Administration:** 1 capsule per 10kgs bodyweight daily.

**Use during pregnancy and lactation:** Yes

## EVENING PRIMROSE OIL

30ml bottle RRP **£12.50**  
100ml bottle RRP **£28.50**

Ideal for small dogs and cats, our supplement provides all the skin and coat enhancing benefits of evening primrose oil in an easy-to-give oil. Rich in the omega 6 fatty acid, gamma linolenic acid (GLA), which is known to influence skin renewal, dandruff, dryness and coat shine, you can add this supplement to food, give it directly into the mouth or drop it onto the nose to be licked off for showstopping shine. Evening primrose is also well-known for its ability to help maintain a normal hormonal balance, which can otherwise affect behaviour and coat quality.

### NEED TO KNOW

**Active ingredients:** 100% Evening primrose oil (min 9% GLA).

**Administration:** 1 drop per 2kg bodyweight daily.

**Use during pregnancy and lactation:** Yes

**Precautions:** Please use glass pipette carefully to avoid breakage or injury.

## GARLIC & FENUGREEK

100 tablets RRP **£10.50**  
200 tablets RRP **£18.50**  
500 tablets RRP **£38.50**  
1000 tablets RRP **£69.90**

A best seller for over 60 years, and a Dorwest customer's favourite, full of natural active compounds that promote all-round health. Black aged garlic provides soothing and cleansing effects as well as helping to maintain the body's defences against parasites and infectious agents. While fenugreek contains soothing and antioxidant compounds to neutralise free radicals. The effects of Garlic & Fenugreek Tablets are seen across the body, including the skin, joints and immune system to keep your pet in top condition. They work especially well alongside our Green Releaf® Tablets to help support allergy symptoms, including itchy skin.

### NEED TO KNOW

**Active ingredients:** Black aged garlic extract 30mg, Fenugreek seeds 16mg.

**Administration:** Initial 3 weeks: 2 tablets per 10kgs bodyweight daily. Maintenance: 1 tablet per 10 kgs bodyweight daily. Amount can be doubled if required. May be crushed for easy administration

**Use during pregnancy and lactation:** Yes

## GREEN RELEAF®

100 tablets RRP **£10.50**  
200 tablets RRP **£18.50**  
500 tablets RRP **£38.50**  
1000 tablets RRP **£69.90**

Naturally support your pet with the soothing, cleansing and pH balancing properties of our Green Releaf® Tablets. With a powerful combination of specially selected whole green plants, these tablets can help to maintain healthy skin, particularly when it is sensitive. They can also be used to help maintain healthy joints and kidneys and as an aid for normal urination through mild water loss - things that owners of older dogs often worry about. Pet owners have also reported seeing a reduction in tear staining and lawn burn.

### NEED TO KNOW

**Active ingredients:** Watercress 70mg, Celery seed 30mg, Horseradish 30mg, Celery plant 30mg, Parsley leaf 20mg, Peppermint 10mg.

**Administration:** Initial 3 weeks: 2 tablets per 10kgs bodyweight daily. Maintenance: 1 tablet per 10kgs bodyweight daily. Amount can be doubled if required. May be crushed for easy administration.

**Use during pregnancy and lactation:** Yes

**Precautions:** Can be given in conjunction with other products, but we always recommend consulting your vet if on existing medications.

## JOINTWELL®

100 tablets RRP **£14.50**  
200 tablets RRP **£24.90**  
500 tablets RRP **£47.90**

Many joint health problems start before your dog shows signs, and all dogs, regardless of age or breed, will experience wear and tear on their joints throughout their lives. Protecting their joints now is the best way to keep them moving long into the future and that's exactly what JointWell® is designed to do. Expertly formulated with vets to help maintain long-term joint health, JointWell®'s unique combination of proven natural active ingredients promotes a healthy joint environment, supporting suppleness and flexibility for free and comfortable movement.

### NEED TO KNOW

**Active ingredients:** Glucosamine Hydrochloride 250mg, Chondroitin sulphate 100mg, Vitamin C 10mg, Zinc 5mg, Hyaluronic acid 1mg.

**Administration:** Give daily. Small dogs & cats: 1 tablet Medium dogs: 2 tablets, Large dogs: 3 tablets, Giant breeds: 4 tablets. We recommend increasing to double for the first month.

**Use during pregnancy and lactation:** Yes

## DORWEST FOUNDATION

10% of the profit from this product goes to charity through the Dorwest Foundation

### KEEPER'S MIX®

250g powder RRP **£15.50**  
500g powder RRP **£27.90**  
1kg powder RRP **£46.90**  
3kg powder RRP **£114.90**

Super-boost your pet's diet with our best-selling Keeper's Mix® dietary supplement. Especially formulated using a blend of eight herbs, this supplement is perfectly balanced to provide natural antioxidants (to neutralise free radicals), vitamins, minerals, chlorophyll, fibres and complex bioactive compounds. Keeper's Mix® promotes all-round health, supporting vital organs and maintaining natural balance in your pet's body, as well as encouraging a thick and healthy coat. Ideal for all dogs as an all-round boost or to provide extra nutritional support for working dogs, animals performing at high levels or those experiencing physical demands.

#### NEED TO KNOW

**Active ingredients:** Kelp seaweed, Celery plant, Lucerne (alfalfa), Nettles, Rosemary, Psyllium husks, Clivers and Wild yam root.

**Administration:** Give daily. Small dogs & cats 1 measure, Medium dogs 2 measures, Large dogs 3 measures, Giant breeds 4 measures.

Measure included in pack and equivalent to ½ tsp. Introduce gradually to the feed to improve acceptability.

**Use during pregnancy and lactation:** Yes

## DORWEST FOUNDATION

10% of the profit from this product goes to charity through the Dorwest Foundation

### KEEPER'S MIX® SENSITIVE

250g powder RRP **£15.50**  
500g powder RRP **£27.90**  
1kg powder RRP **£46.90**  
3kg powder RRP **£114.90**

A new, even more gentle version of our best-selling original Keeper's Mix® supplement. Developed to provide whole-body benefits and suitable for young cats or dogs, or those with known sensitivities. Especially formulated using a blend of seven herbs - five from the original formula and two new additions. German chamomile is well known for its calming and balancing properties and Marshmallow root is traditionally used for its soothing effect on the gut, making this mix perfect for immature guts or pets that are prone to gut upsets. A milder flavour means that even sensitive palates are catered for!

#### NEED TO KNOW

**Active ingredients:** Kelp seaweed, Marshmallow root, Lucerne (alfalfa), Nettles, Psyllium husks, Clivers and German chamomile.

**Administration:** Give daily. Small dogs & cats 1 measure, Medium dogs 2 measures, Large dogs 3 measures, Giant breeds 4 measures.

Measure included in pack and equivalent to 1/2 tsp. Introduce gradually to the feed to improve acceptability.

**Use during pregnancy and lactation:** Yes

### KELP SEAWEED

250g powder RRP **£9.50**  
500g powder RRP **£16.50**  
1½kg powder RRP **£39.90**

Even through winter, keep your pet looking their best with our Kelp Seaweed Powder, which promotes thicker coat growth and stronger pigmentation.

We use a special variety of kelp, Fucus vesiculosus, which is packed full of the 37 minerals and trace elements that your pet needs, making it a great all-round nutritional supplement. We only use kelp harvested from sustainable deep-sea sources and it's tested to British Herbal Pharmacopoeia standards for heavy metals and contaminants. For a higher strength preparation try our Kelp Seaweed Tablets.

#### NEED TO KNOW

**Active ingredients:** Kelp seaweed (Fucus vesiculosus).

**Administration:** Add 1 tsp per 10kgs bodyweight to feed daily.

**Use during pregnancy and lactation:** Yes

### KELP SEAWEED

100 tablets RRP **£10.50**  
200 tablets RRP **£18.50**  
500 tablets. RRP **£38.50**

Keep your dog in peak condition by providing all the minerals and trace elements that they need with our Kelp Seaweed Tablets. These are our highest strength kelp seaweed product, and are now double concentration for maximum effect. With naturally high levels of iron and iodine for strong coat and skin pigmentation, these tablets are perfect to help keep your pet looking their best. We only use kelp harvested from sustainable deep-sea sources and it's tested to British Herbal Pharmacopoeia standards for heavy metals and contaminants.

#### NEED TO KNOW

**Active ingredients:** Kelp seaweed 500mg (Fucus vesiculosus).

**Administration:** 1 tablet per 10kgs bodyweight daily.

**Use during pregnancy and lactation:** Yes

**Precautions:** For animals up to 5kg we recommend crushing the tablet and giving a proportionate amount. Give sparingly during hot weather to animals that are prone to inflammatory skin problems associated with over-heating.

## MALTED KELP

100 tablets RRP **£10.50**  
200 tablets RRP **£18.50**

Our Malted Kelp Tablets are packed full of tasty and nutritious ingredients and are especially formulated to help tempt picky eaters to devour their dinner.

Aniseed aids digestion and adds extra flavour while kelp provides all the essential micronutrients required by your pet. Malt extract is high in energy and Vitamin B - known to stimulate appetite - making this supplement ideal for pets with poor appetites or recovering from illness and in need of a boost.

### NEED TO KNOW

**Active ingredients:** Kelp seaweed 360mg, Malt 90mg, Aniseed 1mg.

**Administration:** 1-2 tablets per 5kgs bodyweight daily, before food.

**Use during pregnancy and lactation:** Yes

## MILK THISTLE

100 tablets RRP **£17.90**  
200 tablets RRP **£31.50**  
500 tablets RRP **£64.90**

Help maintain good liver function in your pet with our high-grade Milk Thistle Tablets. The liver is the ultimate multi-tasker - involved in the production of essential proteins, immunity, nutrient storage, and removing and neutralising toxins from the circulation.

Our supplement naturally supports the liver, using pure milk thistle from whole fruit extract. It is high in silymarin, but also benefits from the other active compounds found in milk thistle fruits, such as linoleic acid, flavenoids, and Vitamin E, which are all known for their antioxidant (neutralise free radicals) and immune supportive action.

### NEED TO KNOW

**Active ingredients:** Milk thistle extract 100mg (80% silymarin).

**Administration:** 1 tablet per 5kgs bodyweight daily, split into at least 2 amounts during the day.

**Use during pregnancy and lactation:** No

**Precautions:** Can be given in conjunction with other products, but we always recommend consulting your vet if on existing medications.

## MOVEWELLIA®

100 tablets RRP **£20.50**  
200 tablets RRP **£35.90**  
500 tablets RRP **£69.90**

Advanced joint care for dogs experiencing joint health challenges, including stiffness and 'slowing-up'. MoveWellia® has been expertly formulated with vets to deliver powerful joint support to maintain comfort and mobility. The combination of proven natural active ingredients includes Boswellia, containing 90% boswellic acid, which supports the natural anti-inflammatory pathways in the body. Manufactured to the highest GMP standards and using only the finest sustainable-sourced ingredients, you can trust MoveWellia® to get, and keep, your dog moving naturally again.

### NEED TO KNOW

**Active ingredients:** Glucosamine hydrochloride 250mg, Chondroitin sulphate 150mg, Boswellia serrata 50mg (90% Boswellic acid), Vitamin C 15mg, Zinc 10mg, Celery seed 10mg, Hyaluronic acid 2mg.

**Administration:** Give daily. Small dogs & cats: 1 tablet, Medium dogs: 2 tablets, Large dogs: 3 tablets, Giant breeds: 4 tablets. We recommend increasing to double for the first month.

**Use during pregnancy and lactation:** No

## NEUTRADOG®

100 tablets RRP **£10.50**  
200 tablets RRP **£18.50**

The ideal supplement for whiffy canines, NeutradoG® Tablets can be used for bitches in season, dogs with bad breath, smelly yeasty skin and for older dogs.

Using a powerful combination of chlorophyllin, parsley, seaweed and mint, it helps to reduce odours in the body, before they are released! Chlorophyllin (the water-soluble version of chlorophyll) helps to neutralise smells by absorbing odour causing compounds. Parsley is also packed with chlorophyll, for a double hit. Seaweed helps to absorb toxins and the mint neutralises nasty niffs!

### NEED TO KNOW

**Active ingredients:** Kelp seaweed (Fucus vesiculosus) 100mg, Parsley leaf 50mg, Peppermint 40mg, Sodium copper chlorophyllin 15mg.

**Administration:** 1 tablet per 10kg bodyweight daily. Can increase to double the amount if necessary.

**Use during pregnancy and lactation:** No

## OMEGA STAR®

500ml bottle RRP **£24.90**  
500ml x 6 bottles RRP **£119.00**

Our Omega Star® oil is ideal for pets who want to look their best and to support those with skin conditions.

Containing a naturally balanced blend of omega oils and Vitamin E, it nourishes and soothes the skin while supporting quality coat growth and shine. Flax seed oil, blackcurrant seed oil and borage seed oil are all rich in omega 3 and 6 oils, which are important in regulating skin renewal, reducing scurfiness, soothing sensitive skin and improving coat condition. Vitamin E is a powerful antioxidant (neutralises free radicals), perfect for maintaining the skin's natural defences.

### NEED TO KNOW

**Active ingredients:** Pure unrefined Flax seed oil, Borage seed oil, Blackcurrant seed oil and natural Vitamin E.

**Administration:** Small dogs: 2.5ml, Medium dogs: 5ml, Large dogs: 7.5ml, Giant dogs: 10ml. Add to your dog's food daily, start by using a smaller amount for the first few days and increasing to the recommended quantity.

**Use during pregnancy and lactation:** No

## RASPBERRY LEAF

100 tablets RRP **£10.50**  
200 tablets RRP **£18.50**  
500 tablets RRP **£38.50**

A popular birth-aid with breeders, the use of raspberry leaf in pregnancy is documented as far back as the 6th century and is still recommended by health and veterinary professionals today. When used in pregnancy, raspberry leaf helps to tone and maintain the strength of the muscles of the uterus in preparation for whelping/kittening. It is also known for its hormone balancing properties, and so our tablets are helpful for supporting bitches who experience phantom pregnancies.

### NEED TO KNOW

**Active ingredients:** Raspberry leaf 450mg.

**Administration:** During pregnancy: 1 tablet per 10kgs bodyweight daily from third week of gestation until one week after whelping or kittening. To prevent false pregnancy: 2 tablets per 10kgs bodyweight daily from the start of the season for 12 weeks.

**Use during pregnancy and lactation:** Yes

## SCULLCAP & VALERIAN

100 tablets RRP **£12.50**  
200 tablets RRP **£21.90**  
500 tablets RRP **£44.50**  
1000 tablets RRP **£79.50**

Our Scullcap & Valerian Tablets help to relax your pet, with the active herbs naturally supporting the calming pathways within the nervous system, reducing anxiety without making pets drowsy or wobbly. In fact, they are widely used for agility and show dogs when they need to be alert and focussed yet calm. Our Scullcap & Valerian Tablets help tackle stress, fear and anxiety, whatever the cause, with best effects seen when used over time and alongside gentle behavioural training - so you and your pet can relax, no matter what.

### NEED TO KNOW

**Active ingredients:** Valerian root 250mg, Mistletoe 150mg, Gentian 48mg, Scullcap 30mg.

**Administration:** 1 tablet per 5kgs bodyweight daily, increase to double as and when required. Recommended to be used daily for at least 3 weeks. Ideally give half in the morning and half in the evening.

**Use during pregnancy and lactation:** No

## TREE BARKS

100g powder RRP **£14.50**  
200g powder RRP **£24.90**  
400g powder RRP **£44.50**  
1Kg powder RRP **£89.90**

A blend of three complementary herbs that provide effective digestive support, for comfortable tummies and normal stools. Slippery elm bark, white poplar bark and marshmallow root work together to help slow the passage of food and encourage normal absorption of nutrients. A transformation from fluffy powder to a blancmange-like substance allows it to coat and soothe the digestive tract, naturally aiding digestion. Ideal for use in pets of all ages, both long-term for ongoing tummy troubles, and those with short-term upsets caused by eating something they shouldn't have!

### NEED TO KNOW

**Active ingredients:** Finely powdered slippery elm bark, Marshmallow root, and White poplar bark.

**Administration:** 1 tsp per 10kgs bodyweight daily. Add to food, live yoghurt, or mix with liquid. Can be increased or given with each feed if required for more severe cases.

**Use during pregnancy and lactation:** Yes

**Precautions:** Due to the wide range of intestinal disorders, some of which may be serious, it is recommended that veterinary advice be sought before using this product or if the condition fails to improve.

## TURMERIC

100 tablets RRP **£20.90**  
200 tablets RRP **£37.90**  
500 tablets RRP **£75.90**

Our specially formulated Turmeric Tablets are made using a pure and potent extract. Consisting of 95% curcuminoids - the active part of turmeric - they can help support your pet's natural anti-inflammatory processes. Extracted from whole root and grown in Southern India using sustainable small farming methods, this source of turmeric is renowned for its purity and full traceability. We've added Bioperine® (black pepper extract) to help boost absorption, so you can be sure that our supplement has maximised bioavailability.

### NEED TO KNOW

**Active ingredients:** Powdered Turmeric root extract 175mg (Equivalent to 7175mg of dry turmeric root), Bioperine® (Black pepper extract) 2mg.

**Administration:** Give daily. Small dogs and cats 1 tablet, Medium dogs 2 tablets, Large and Giant breeds 3 tablets. Give with food to improve bioavailability. For the first week it can be advisable to start at a lower dose and build up.

**Use during pregnancy and lactation:** No

**Precautions:** Always consult your vet before administering if on medication, especially anti-coagulants or before an operation.

## VALERIAN COMPOUND

30ml bottle RRP **£12.50**  
100ml bottle RRP **£28.50**

Calm your stressed, hyperactive or frightened pet quickly with our fast-acting Valerian Compound. Containing pure extracts of three herbs in liquid form, it acts within just 30 minutes with effects lasting for up to two hours – perfect for short term use. It can be dropped straight into the mouth, or given on food to help make any event instantly less stressful.

It's non-drowsy and even our fussy feline friends love the smell, making it super easy to use. It can be used in conjunction with our Scullcap & Valerian Tablets for situations that have a longer duration or for especially frightening situations.

### NEED TO KNOW

**Active ingredients:** Vervain, Valerian, Mistletoe extracts.

**Administration:** Small dogs & cats 1.25ml, Medium dogs 2.5ml, Large dogs 5ml, Giant breeds 7.5ml, given when required. It is not recommended that more than two lots of the above amounts be given in a 24 hour period.

**Use during pregnancy and lactation:** No

**Precautions:** Caution should be taken when administering to exotic cats with low body fat, as very occasionally hyperactivity has been induced. Please use glass pipette with care to avoid breakage or injury.

## WHEATGERM OIL

100 capsules RRP **£8.50**  
200 capsules RRP **£14.50**  
500 capsules RRP **£29.90**  
1000 capsules RRP **£52.90**

Wheatgerm oil is naturally rich in Vitamin E, a potent antioxidant which neutralises free radicals. Free radicals are produced as a by-product of everyday cell functions, so a plentiful supply of Vitamin E is beneficial to keep them in check. Our Wheatgerm Oil Capsules can be given year-round to help promote a healthy skin and coat and are also used to maintain fertility and a healthy reproductive system in both male and female pets.

### NEED TO KNOW

**Active ingredients:** Wheatgerm oil 281mg, Gelatin, Glycerol.

**Administration:** 1 capsule per 10kgs bodyweight daily. For the 7 days prior to mating give to both male and female, doubling the amount given on the day before and day of mating. Females should continue with Wheatgerm Oil for three weeks following mating to provide support to the foetuses.

**Use during pregnancy and lactation:** Yes

## WHEATGERM OIL

100ml bottle RRP **£9.90**  
500ml bottle RRP **£27.50**

Our Wheatgerm Oil liquid delivers high levels of Vitamin E in an easy-to-give, premium grade liquid. Just add it to your pet's food for them to benefit from the powerful natural antioxidant action of Vitamin E, which neutralises free radicals that are produced as a by-product of everyday cell functions. Our Wheatgerm Oil Liquid can be given year-round to help promote a healthy skin and coat and is also used to maintain fertility and a healthy reproductive system in both male and female pets.

### NEED TO KNOW

**Active ingredients:** 100% cold extracted Wheatgerm oil.

**Administration:** Give daily. Small dogs & cats ¼ tsp, Medium dogs ½ tsp, Large dogs 1 tsp, Giant breeds 1½ tsp.

**Use during pregnancy and lactation:** Yes

**Precautions:** Please seek our advice before giving alongside other vitamin supplements. Please use glass pipette with care to avoid breakage or injury.

# Topical treats

Our range of topical products are perfect to keep your pet's coat, skin and teeth in tip-top condition.

Our shampoo range including liquids and bars, only uses the highest quality, natural ingredients to ensure the perfect balance to enhance your pet's coat condition and shine. Our nourishing balms have become a staple for many pet owners, especially formulated to naturally soothe dry skin, and cracked noses or paws. And our Roast Dinner Toothpaste helps keep teeth and gums healthy, with its gentle formulation developed specifically for pets and a taste they'll love. Prices correct at time of print.

## SOFT & SERENE DOG SHAMPOO BAR

90g bar RRP **£9.90**

Restore calm with our Soft & Serene Shampoo Bar, with a divine floral scent layered with fresh and earthy undertones. With a real scent of nature, Soft & Serene is specially formulated for dogs prone to itchy, irritated and sensitive skin. With borage oil and chamomile and lavender essential oils, alongside a base blend of shea butter and coconut, sunflower, castor and sweet almond oils, these highly nourishing and soothing natural ingredients support optimal skin health, so your dog can wave goodbye to flaky, dry skin.

### NEED TO KNOW

**Ingredients:** Coconut oil, Shea butter, Olive oil, Sunflower oil, Castor oil, Sweet almond oil, Borage oil, Chamomile essential oil, Lavender essential oil.

**Administration:** Massage into wet coat and rinse thoroughly. Ensure the bar is completely dry before storing.

**WARNING:** contains nuts (Sweet almond oil).

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

## FOX & FLEA DOG SHAMPOO BAR

90g bar RRP **£9.90**

Our Fox & Flea Shampoo Bar keeps your four-legged friend clean with a luscious fresh and minty scent, complemented by warm and woody citrus notes. Nettle, and eucalyptus, peppermint and lemongrass essential oils help deep clean and counteract even the most unpleasant odours, so you can be confident that this shampoo bar has got your (and their!) back - even the fox poo rollers! These oils are also known to help deter unwanted biting beasts such as fleas and ticks.

### NEED TO KNOW

**Ingredients:** Coconut oil, Shea butter, Olive oil, Sunflower oil, Castor oil, Sweet almond oil, Nettles, Eucalyptus essential oil, Peppermint essential oil, Lemongrass essential oil.

**Administration:** Massage into wet coat and rinse thoroughly. Ensure the bar is completely dry before storing.

**WARNING:** contains nuts (Sweet almond oil).

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

## NATURAL & NAKED PET SHAMPOO BAR

90g bar RRP **£9.90**

Our Natural & Naked Shampoo Bar's stripped-back and simple formula makes it ideal for the most sensitive skin, with its exquisite subtle aromatic, earthy notes. With no essential oils, it is ideal for any pet, including those who may be prone to allergies, puppies and cats who can be more susceptible to essential oils. Containing calendula oil, and a base of shea butter and coconut, sunflower, castor and sweet almond oils, it is highly moisturising and nourishing for flake-free, healthy skin.

### NEED TO KNOW

**Ingredients:** Coconut oil, Shea butter, Olive oil, Sunflower oil, Castor oil, Sweet almond oil, Calendula oil.

**Administration:** Massage into wet coat and rinse thoroughly. Ensure the bar is completely dry before storing.

**WARNING:** contains nuts (Sweet almond oil).

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

## CLEAN & FRESH DOG SHAMPOO

250ml bottle RRP **£9.50**  
500ml bottle RRP **£16.50**

Our newly reformulated Clean & Fresh Dog Shampoo is now better than ever! Using the minty scent of black peppermint, which is known to deter parasites, alongside eucalyptus and lemongrass essential oils, this shampoo helps to keep your pet's coat fresh and clean. It has good rinsability with no residue remaining after washing. Use Clean & Fresh Dog Shampoo regularly and you should find that fleas simply don't want to hang around on your pet!

### NEED TO KNOW

**Ingredients:** Black peppermint, Eucalyptus and Lemongrass essential oils, Aloe vera and Chamomile extracts.

**Administration:** Wet coat thoroughly with warm water, apply shampoo using hands and massage over the whole body but avoiding the eye, ear and nose area. Leave on for a few minutes before rinsing thoroughly. Not for internal use.

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

## SCENT & SHINE DOG SHAMPOO

250ml bottle RRP **£9.50**  
500ml bottle RRP **£16.50**

The newest addition to our shampoo range, our Scent & Shine Dog Shampoo enhances shine while leaving behind a beautiful, uplifting scent which we know you and your dog will love! The gentle formulation combines the hydrating and soothing properties of chamomile extract and aloe vera, with a range of powerful essential oils. Rose geranium soothes and balances the skin, blood orange enhances coat shine and reduces redness while jasmine heals and moisturises.

### NEED TO KNOW

**Ingredients:** Rose geranium, Blood orange and Jasmine essential oils, Aloe vera and Chamomile extracts.

**Administration:** Wet coat thoroughly with warm water, apply shampoo using hands and massage over the whole body but avoiding the eye, ear and nose area. Leave on for a few minutes before rinsing thoroughly. Not for internal use.

Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

## SOOTHE & CALM DOG SHAMPOO

250ml bottle RRP **£9.50**  
500ml bottle RRP **£16.50**

Especially formulated for sensitive skin, this nourishing shampoo provides welcome relief to all pets. It helps to restore, moisturise and rebalance their skin by combining the soothing and hydrating powers of aloe vera, chamomile extract and oatmeal with the calming properties of lavender extract. This shampoo works harmoniously with their skin and by using no artificial colours, fragrances or chemical foaming agents,\* it's both natural and hypoallergenic.

From helping to soothe dry, irritated or flaky skin, to maintaining healthy skin and a glossy coat, this shampoo provides the perfect pamper treat for your pet.

### NEED TO KNOW

**Ingredients:** Oatmeal, Lavender essential oil, Lavender, Aloe vera and Chamomile extracts

**Administration:** Wet coat thoroughly with warm water, apply shampoo using hands and massage over the whole body but avoiding the eye, ear and nose area. Leave on for a few minutes before rinsing thoroughly. Not for internal use.

\*Free from artificial fragrances, SLS or parabens, silicone, mineral oil, petroleum and PEGs.

## ROAST DINNER TOOTHPASTE

200g jar RRP **£12.90**

Your pet will love this tasty toothpaste which has been specifically developed alongside veterinary professionals. The low-foaming and gentle formulation cleans teeth without damaging enamel, unlike human toothpastes, which are too harsh for our four-legged friends. Containing sage oil which is a potent antiseptic and anti-oxidant (to neutralise free radicals), it helps to keep those gums fresh and healthy. Brushing your pet's teeth regularly keeps their mouths healthy by helping to prevent the build-up of dental plaque which can lead to tartar, eventually causing gum disease and tooth damage.

### NEED TO KNOW

**Ingredients:** Chalk, Fine pumice, deionised Water, Glycerol, Laponite, Sodium lauryl sulphate <0.5%, Sodium benzoate <0.3%, Liver flavour, Sage oil.

**Administration:** Apply with a soft toothbrush; for smaller dogs and cats a piece of muslin cloth or cotton bud may be more acceptable. Not harmful if swallowed but a drink of water after cleaning is advisable.

**Use during pregnancy and lactation:** Yes

## PAW & NOSE BALM

50ml tin RRP **£12.50**

Our ultra-nourishing balm is perfect for softening crusty noses and soothing sore, cracked pads. With no added fragrance it's ideal for those highly sensitive doggy noses and of course, it's also lick-safe. The soothing infusion of herbs in natural oils work to nourish the skin:

**Calendula:** softening, aids skin repair and helps to calm irritation.

**Marshmallow:** nurtures and protects the skin.

**Chickweed:** softening with soothing and calming properties, perfect for itchy and sensitive skin.

Combined with natural beeswax and nourishing shea butter, this balm is a pot of pure goodness.

### NEED TO KNOW

**Ingredients:** Calendula in sunflower oil, Marshmallow in jojoba oil, Chickweed oil, Shea butter, Beeswax.

**Administration:** Apply regularly until all signs of soreness, dryness or irritation have disappeared.

**Use during pregnancy and lactation:** Yes

## SKIN BALM

50ml tin RRP **£12.50**

Our hand-crafted, lick-safe skin balm is incredibly versatile and perfect for irritated, dry or problem skin. The soothing infusion of herbs in sunflower and jojoba oils work to nourish the skin:

**Comfrey:** moisturising, helps to stimulate cell growth and maintain skin elasticity. Ideal for small scrapes and bruises.

**Calendula:** softening, aids skin repair and helps to calm irritation. Perfect for inflamed skin.

**Chamomile:** calming for sensitive skin.

With lavender, rose, geranium and mandarin oils blended with natural beeswax and nourishing shea butter, for the ultimate skin treat for your pet.

### NEED TO KNOW

**Ingredients:** Sunflower oil, Jojoba oil, beeswax, Shea butter, Calendula, Comfrey, Chamomile, Rose geranium, Lavender & Mandarin essential oils.

**Administration:** Apply regularly until all signs of soreness, dryness or irritation have disappeared.

**Use during pregnancy and lactation:** Yes

NEW FORMULA

## DORWEST HOMOEOPATHICS

15ml bottle RRP **£10.50**

### ARNICA 30C

An essential item in every first aid kit. Extremely useful to counteract the distress and agitation that follows any fearful occurrence or fright. Commonly used in a wide range of emergency situations and to counteract bruising.

### CAULOPHYLLUM 30C

Helps during whelping and kitting by assisting contractions and so aiding delivery.

### EUPHRASIA 15C

Derived from the plant Eyebright, this remedy is primarily used to keep eyes clear and bright. Particularly useful when these are sticky and sore.

### FRAGARIA 3C

To soften and aid the removal of tartar on encrusted teeth and to slow down and prevent the formation of new plaque deposits.

### GELSEMIUM 30C

For fear and fright and also effective in reducing sex drive in males, so ideal for use if a female in season nearby is causing over excitement.

### HEPAR SULPH 30C

Has a number of uses but is especially helpful for smelly, gungy ears.

### PULSATILLA 15C

Gives support to maintain health following phantom pregnancy and also helpful to soothe the mouth, throat and tender gums.

### RHUS TOX 6C

One of the most popular homoeopathic remedies – helps maintain healthy joints and mobility and is ideal to give with herbal treatments for optimum benefits.

### SULPHUR 30C

Ideal for intense, itchy skin and can support with flea allergies and with many other skin conditions, especially if allergy related.

### SYMPHYTUM 15C

Being prepared from Comfrey herb, whose old country name is Knitbone, it's not surprising that this remedy supports healthy ligaments and tendons, particularly following a strain or sprain.

### URTICA URENS 3C

Prepared from the nettle herb at a low dilution, this is ideal for the mum after a litter and helps to support the natural bodily process of less milk production when weaning the youngsters away from her.

### URTICA URENS 30C

Another homoeopathic first aid remedy prepared from Nettle herb and used for nettle rash and insect bites. Also maintains milk flow in lactating females.

**Administration:** Severe conditions: 3-5 drops in food, or by mouth, up to 3 times daily. Chronic conditions: 3-5 drops in food, or by mouth, up to twice daily.

# The A to Z for keeping your dog healthy

Using our 75 years of experience in naturally supporting pet health, we have put together a quick reference guide of common problems your pet may face.

Our experienced advisors are always on hand to give advice on general pet health and recommend the best products for your pet, but our quick reference guide can be a good starting place. It can help you quickly and easily find the most suitable products for your pet from our range of professionally formulated herbal supplements and topical preparations. For more in depth advice and information, you can head over to [www.dorwest.com/commonproblems](http://www.dorwest.com/commonproblems) where you will find a more detailed A-Z and also our blog, which has a huge library of articles with a wealth of information on pet health and wellbeing. Alternatively, you can always call to speak to a member of our team for help – we always love to hear from you!

# What our customers say

With over 75 years' experience we hope by now we have got a few things right. Nothing pleases us more than hearing from a happy customer, especially when they also take the time to send in photos of their happy pet, and we can see what a difference our products have made. Here is just a selection of what some of our customers say.

*"I was searching for puppy-friendly products and came across Dorwest's **Keeper's Mix® Sensitive** and **Soothe & Calm Shampoo** while researching the best options for Sansa, my young Bernese Mountain Dog. The natural blend of the shampoo was perfect for her sensitive skin, and the **Keeper's Mix® Sensitive** provided a holistic supplement for overall health. Dorwest has become my go-to choice for effective and gentle puppy care products. The results have been fantastic and we will continue to use Dorwest products into adulthood. Highly recommend for fellow puppy parents."*  
**Annie & Sansa**

*"Since my fear reactive rescue dog Koda has been on the **Scullycap and Valerian Tablets**, I have noticed a massive reduction in his overall anxiety levels. He is able to cope with stressful situations a lot better which has meant we have taken massive strides in his training. We are able to enjoy his walks now and his quality of life has improved massively. I also add the **JointWell® Tablets**, **Easy-Green® Powder** and **Keeper's Mix®** to his food daily and the difference it has made is incredible!"*  
**Tilly & Koda**

*"We've used **Keeper's Mix®** since the girls were puppies, and we use it daily in their raw food diet. Bella (the sable) had her 1st season in 2023, and she experienced phantom pregnancy related symptoms. Someone recommended the Dorwest **Raspberry Leaf Tablets** and within a week or two Bella was back to her usual self. She came into her 2nd season at the end of 2023, we reintroduced the raspberry leaf straight away and we had no issues with her season. We also recently purchased **Evening Primrose Oil** following a discussion with a nutritionist to help balance Bella's hormones. The **Tree Barks Powder** has also been amazing if the girls have ever had an upset tummy."*  
**Chloe, Bella & Maple**

*"Ever since coming home at 8 weeks old, both Bleu & Storm have been given **JointWell® Tablets** as a preventative due to labs being prone to joint issues. I am more than confident they are getting a great quality product that really is making a difference - the vets have said their hip & joints are both in perfect condition with no worries!"*  
**Bryany, Bleu & Storm**

If you have any feedback on our products be sure to let us know, just email us at [info@dorwest.com](mailto:info@dorwest.com)!

# Ask the advisor

When making an important decision about the health of your pet, the last thing you want to do is use guesswork. That's why Dorwest advisors are always on hand to help.

## The personal touch

Our UK-based advisors are available Monday to Thursday from 9am until 5pm, and Friday 9am to 4pm on **01308 897272**. You can also speak to us on the Dorwest trade stand at canine events across the country. Alternatively drop us an email at [advice@dorwest.com](mailto:advice@dorwest.com) and we'll get back to you within 24 hours during the working week.

Expect to make contact with a real person and have a genuine conversation. All of our trained advisors love and know all about animals and their one aim will be to provide you with the information you need. That's right – no hard sell, no being passed from pillar to post, just a straight forward recommendation tailored to your pet.

## Social media

You can connect with us and be part of our social community on Facebook, Instagram, Twitter & TikTok. We run fact-packed Facebook and Instagram Live Q&A sessions with our MD Jo on a regular basis and we also have a private Facebook group which you can request to join 'Dorwest Group – Experts in herbal pet care'.

Like us, follow us and share with us at:

## Visit our website

Everything is organised by health area such as 'digestive disorders' or 'skin and coat', making it easy to find the information you need plus there is a comprehensive A-Z of common problems making it even easier to select the right product for your pet.

[www.dorwest.com](http://www.dorwest.com)

*NB. Remember we are not vets and do not diagnose. You should always consult a vet if you are concerned about your pet's health.*

# Ways to shop

It's easy to buy the Dorwest herbal supplements you need.

## Direct from Dorwest

Place your order by telephone on **01308 897272**, or online at **www.dorwest.com**

Orders placed before 3pm on any weekday will be dispatched on the same day by Royal Mail 48 Hour Tracked service.

## Stockists

To find your nearest stockist, please give us a call or email **stockist@dorwest.com**, outlets stocking Dorwest products include:

- Veterinary practices
- Independent pet shops
- Online retailers
- Grooming parlours
- Hydrotherapy centres

Some stockists do not stock the complete range of Dorwest products, but many will be happy to order in the appropriate product within 24 hours.

## International Stockists

The Dorwest range is available in a number of countries worldwide, for details please see **www.dorwest.com** or email **info@dorwest.com** for further information.

If you choose to have your goods shipped directly from us in the UK please be aware that they may be subject to import restrictions at the point of entry.

## The Dorwest Promise – confidentiality

We are committed to protecting your privacy and will never sell or pass on your details to third parties.
